Presidents Letter 2018

Hello TAHIMA Members,

I want to first thank each of you for your continued support of TAHIMA Organization, we exist because of you.

Our purpose, as a membership association, is to advance and support our members in the Health Information Management field by providing a place where HIM professionals can network with other individuals in the industry.

We do this by education and shared knowledge. Our presenters deliver industry relevant information which can be used in our daily work.

My goal this year is to enable access to the audio content of our meetings. This will be helpful for those who cannot make the meetings but would still like to listen.

I am very fortunate to work with a board that is very passionate and willing to do what it takes to make this organization a success.

Thank you for this opportunity.

Karen Youngblood

TAHIMA President
2018
