Please join us for a presentation and activity on:

Problem Solving—A Scientific Approach
By
Jennifer Haury

Jennifer Haury is an Organizational Anthropologist and the CEO of All Angles Consulting, LLC. She visited us in February of 2017 (and had us playing with spaghetti and marshmallows and taught us some cool lessons about collaboration). Jennifer has worked in the healthcare industry for nearly 30 years—helping teams improve their culture in both payer and provider areas. Jennifer's current role is to help organizations build a culture of continuous improvement, help teams and their leaders improve performance, and she has a Lean Six Sigma Master Black Belt certification. She has been a featured speaker at the WA State Lean Conference for 5 years in a row. She is an entertaining speaker and enjoys making learning fun and active!

Jennifer also holds the coveted title of "Mom" to 3 amazing humans who have taught her the most about how to apply her professional learnings in a chaotic environment where a culture of continuous improvement is always in "learning lab" phase!
