

Tacoma Area
Health Information Management
Association

Please join us for two presentation on:

ICD-10-CM/PCS – Coding Pacemakers/ICDs, CABG and Heart Conditions.

Adrienne Commeree, CPC, CPMA, CCS, CEMC, CPIP Regulatory Specialist

Adrienne serves as a Regulatory Specialist teaching the Certified Coder Boot Camp® programs. She is an instructor with extensive knowledge of ICD-10-CM, PCS, and CPT coding guidelines as well as evaluation and management and auditing guidelines. She has many years of experience in the healthcare industry involving coding, auditing, training and compliance expertise.

Adjusting the Nervous System

- A different perspective on the chiropractic adjustment

Dr. Bo Mullen, Harbor Life Chiropractic

Learn the origins and history of chiropractic followed by a neurologically focused description of what chiropractic has evolved into. Dr. Bo Mullen was born and raised in WA state and has a passion to help people express their full-blown health potential. The expression of life has been decreased in most people that live in today's world and the challenges that human beings have self-imposed on themselves. Learn how an approach to adjust the nervous system vs solely biomechanical problems can potentially be more effective at fixing the CAUSE of your symptoms vs the FEELINGS that we notice.

HIM Domain: Clinical Data Management
